Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is the fourth Office Action for application serial number 10/633,075, Support for Survey Rod, filed August 1, 2003.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-16, 19, 22, 23 and 43 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,620,682 to Yim. The present invention reads on Yim as follows: Yim teaches a support comprising a grip (20), first leg (12), second leg (14), slidably mounting means (50), extending and retracting means (38, 40), a mounting means (26) for extending and retracting means and a releasable means (the strap received in the slot similar to that of bracket 22) for fastening the extending and retracting means. The first leg is rotatably attached to the grip. The second leg is rotatably attached to the grip. The grip slides on the survey rod (10).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 3632

invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17, 18, 20, 21 and 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yim in view of U.S. Patent No. 5,096,148 to Quellais. Yim teaches the limitations of the base claim, excluding the first and second legs having a bevel.

Quellais teaches a support (1). The support includes a first leg (6) and a second leg (6). Each leg has a bevel. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have modified the means for pivoting the legs as taught by Yim to have incorporated the means for pivoting the legs as taught by Quellais as a mere substitution of functional equivalent part for readily retracting the legs at will.

Allowable Subject Matter

Claims 3-13, 24-41 and 44-47 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach the collar having an aperture and a releasable fastener in combination with the other elements recited which is not found in the prior art of record.

Conclusion
